

Residential Learning

Primary 4 started their year with a fantastic residential educational visit to the Low Port Education Centre, Linlithgow. As Linlithgow Palace was closed for filming, we visited Stirling Castle as part of our Medieval Castles topic. We still explored the loch, though, playing games and taking part in a workshop with the Historic Scotland Ranger Service.

We displayed excellent team-working skills in the forest and experienced canoeing on the Union Canal. Most importantly, we all had fun and came back to school with so many new ideas, thoughts and experiences to build upon.

Drumming for Excellence

George led us through a series of drumming workshops, focusing on different rhythms on the Cajón drum from Peru. We used our knowledge to create and perform a sound story depicting a battle at a medieval castle.

Respect Assembly

Our first assembly of the year focused on the concept of respect. After embarrassing Mr McCabe for his 'rudeness', we retold the story of The Lion, The Mosquito and The Mouse and recorded both the audio and video for a music track called 'R-E-S-P-E-C-T'.

Basketball & Hockey

In P.E. lessons, we have been exploring invasion games; specifically, basketball and hockey. We have not only improved our technique but also our teamwork and communication skills.
